A C:1 1 of 2 Accessory Dwellings / Casitas

EXIST IN CITY BUT NOT PERMISSIVE USE / ZONING CODE SEPERATE ENTRANCES
NOT ALLOWED - 2 KITCHENS
UNENFORCEABLE... = ARGUMENT TO MAKE PERMISSIVE

OK TO HAVE W/ NO COOKING SURFACE
CULTURALLY ACCEPTABLE, HISTORICALLY DONE
THROUGH IDO - COMMUNITY PLANNING, AREA ASSESSMENTS IN FUTURE
CITY-WIDE PUSH FOR ACCEPTANCE - FAILED. / PEOPLE DISLIKED THE IDEA - DEGRADATION OF NEIGHBORHOODS
SPECIFIC APPROACH TO ALLEYS & ACCESS TO 2ND DWELLINGS
AREAS W/ ALLEYS WOULD BE MOST ACCEPTING
MARKET TRENDS - ALLOW FOR MULTI-GENERATIONAL
BLDG CODE MIN. SIZES FOR ROOMS TO SOFT, PERMANENT FOUNDATION
TINY HOUSES ON WHEELS - AN RV, NOT FOR LIVING IN
IDO KEPT NOT #2 - IN-LAW QUARTERS / CASITAS REGULATED THE SAME
GOOD USE OF SPACE / HOUSING TYPE (URBAN DENSITY) - URBAN INFILL
PROCESS FOR REQUESTING INCREMENTALLY.
HOUSING UNAFFORDABLE / HIGH POVERTY
MORE CONSIDERATION FOR THIS WITH NO MORE SECTOR PLANS
HOMELESSNESS WOULD/MAY BE LESS PREVALENT.
COMMUNITY / NEIGHBOR LESS CRIME
FEAR / OBJECTIONS WITHIN COMMUNITY. - REDUCE MARKET VALUE
IDO - MORE NOTIFICATION REQUIREMENTS AT A SMALLER SCALE. ie. NEIGHBORHOOD ASSN / NEIGHBORS WOULD BE NOTIFIED.
LONG-TERM RENTAL & AIRBNB BOTH ACCEPTED.

D:1 1 of 2

Don, Pat, Andy, Lee Ann, Andrew, Claude,
Danny H,

- taxpayers pay for 3 ^{public} transit systems
 - ABQ RIDE
 - Rio Metro - Railrunner
 - UNM shuttles
- break the narrative;
public good! -
JUST LIKE ROADS

- Parking space: \$5-10k

- Parking: perception, quantity

- Biz have lost biz

- Positive or negative

- Brew pubs all over town; don't need
to go to Nob Hill

- there are systemic problems w/ transit

- promote "fare free zone"; gets people started!

D.1 2 of 2

- intimidated about standing in middle of street
- how do you use the system?
- ART station feel safer

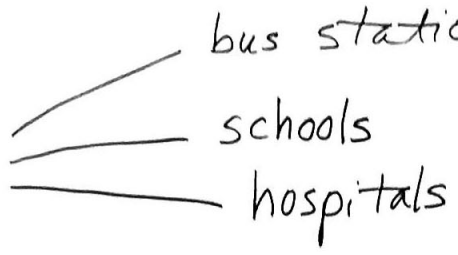

- Woman's safety: intimidated by sexual harassment in public

Space

- A person @ each station? Giving info? Making it safer
- Adopt-a-stop: volunteers to clean up stations
- Cameras: recording all the time... but not being watched * in real time
- Try to show friends that "bus is ok" ... but sometimes it's not
- Aspen: TDM manager; worked w/all orgs; @ employers had transit passes
- Perception of "transit 4 poor people"; **CHANGE THAT!**

F:1 10FZ

10:30 a.m.

- Multi-language access 
 - bus stations
 - schools
 - hospitals
- Resource center for immigrants: refugees in Int'l District- help people ^{access &} navigate services
- Lack of language access/interpretation isolates families.
- Problems w/ interpretation/translation causes mistakes in medical treatment- serious mistakes
- Impossible to provide all info in all languages. Instead, create resource centers around ABQ to assist with access to info. in many languages.
- Lack of signage in different languages even in Int'l District - why?
- Rhetoric out of city hall needs to emphasize multi-lingual access, atmosphere - inclusion
- How do we create a sense of community across neighborhoods, classes, races, etc? (while ~~we~~ we demand changes in policies & practices)
- Community-based efforts need to be met w/ city support.

face-to-face?
correct interpreter
(Dari vs. Farsi)

- CBO's : non-profits doing a lot of work w/ ESL and services but need municipal and other funding support. Better cooperation : coordination btw/ city, county, CBO's, non-profits. F.1 20F2
- Need good asset-map of existing services, resources, etc. to see what's missing/needed.
- ABQ Ride needs to have multi-lingual app.
- Make it easier (less costly) ^{for refugees/immigrants} to get a license for the work they did in their home countries. They have the experience but not \$\$ to get licensed in U.S.
- Need creative approaches to multi-language access in ABQ.

Pedestrian Safety

Safe places to walk

+ dark?

traffic crossing
wandering guys at night

~~1st~~ Lomas + University
multiple lanes
no place to cross
not enough time

can't
walk to
bus because
of fear
of
CRIME

* We feel that our kids in middle-high school cannot safely walk to school (cnm)

"Unless you can walk safely, ^{you} don't have an urban environment" Cheryl

* Pedestrians need to take responsibility

no texting

no dark clothes

take precautions

* CROSSING CENTRAL IN NOB HILL IS DANGEROUS AND THE ART PROJECT HAS MANY MORE SIGNS LEADING TO [↑] DRIVER DISTRACTION, MORE

J:1 20F Z

What would help overcome fear and reluctance to walk?

- ① Better and more resilient striping for cycling and walking
- ② Lighting in downtown especially now when it gets dark early
- ③ Better lighting in International district and on underpasses
- ④ Improved crossing times
University - Lomas
" - central
Yale and central
Lomas and 2nd
- ⑤ Promote "Look for Me we are all going Some where"
DOT + UNM program
- ⑥ Pedestrian only crossings mid-block
- ⑦ Health walk trails
more people we know walking
- ⑧ "Street Smart" lessons
- ⑨ Report things to 311 / your city counselor, etc...

SPACES FOR WOMEN

Safety and girls

Night vs Day -

cycling -> creates a sense of safety (but we need more support)

lanes, laws, support

~~Fun / Economic Development~~

Running - Time matters

early before you are likely to get cat-called

More art -> under bridges & dark places you have to travel

older women -

both

house sharing prevents being isolated

support street art

- tap into local women's groups network links

Shape-shifting
moment of #metoo

History matters

Culture that supports women
rather than one that
expects women to
accommodate.

More moms & babies

tech council
for programs
for girls

More lights

- support interaction
across racial/ethnic
class, and age categories

How do we promote the
woman friendly spaces

* cycling friendly = pedestrian friendly = ^{woman} family friendly

Look to other cities - what
are they doing to get people
outside?

Education / Mentoring

no man sprawl-like education
Campaigns focused on changing
hostile cultures (rather than
just focusing on making
women more resistant)

Public restrooms - that are
clean, well lit, don't smell,
in good repair

~~4~~ Immediate Next

- ### Steps
- work with local womens groups to incentivize meeting in open spaces (ie food snacks!)
 - provide feedback training to police on how they interact with women → system needs to be changed for DV victims
 - approach local groups & public entities for pro women resources to support getting women outside.
 - ~~step~~ create a central location for resources for ^{local} girls & women

Creative Placemaking to build Trust

Mapping Neighborhood Talents

Look at other municipal models

* Give Credit to those already doing it.

Trust doesn't happen when
we're segregated - Need to
approach segregation as an issue.

S.V. Skate boarder zone organically
site selected & built: Need to empower
that and care & maintenance of the site.
True sense of agency & dignity.

Storytelling helps to build Trust

We have a self-esteem problem that we can change
but we're #1 in Team Spirit!

Generative projects that

Take advantage of the Monsoon Rains to "Grow"

Enable everyone to have a voice w/ everyday interactions

Can Public Art Law be changed to do more temp art initiated by citizens?

Cultivate an abundance mentality.

Neighbors can identify their own "Opportunity Sites". Opportunity Site mapping!

Neighborhood events

Need to capture neighborhoods' ideas early in the process to help foster efforts.

Being an Age Friendly City
by using City Centers for creative
expression (using World Health Criteria)
& multigenerational interactions.

* We need to better connect w/all
who are doing the same/similar
things.

Need better funding/infrastructure

Build on little partnerships to
realize the temporary Pop Up
events or installations

There need to be a "range" of
efforts

Trust includes forgiveness; How can
we have a reconciliation on a City wide
level?

SUMMARY OF DISCUSSION (remember to write so people can follow the most important points when reading this later):

- How to change from poverty to abundance mentality?
 - Make connections between groups w/ similar purposes/intents. "knit programs together"
 - trust - knowing each other's stories + forgiveness
 - how to bring more people to placemaking conversations
 - grants to develop ideas "generative grants" \updownarrow
 - organic placemaking - homeless gathering spots
 - official processes intersect w/ grassroots conversations
 - ART - community art @ stations / pianos @ each station
- IMMEDIATE NEXT STEPS (& PERSON(S) RESPONSIBLE)

What is the future of A: ^{ROUND} public transportation in ABA?

① Luke, ② Melora, ③ Joseph P., ④ Priscilla, ⑤ Rachel

CURRENT ISSUES: Ideas

- Low frequency of service outside of Central Ave. corridor
- Employer incentives for employees to use transit
- Youth - free passes
- More rapid ride routes (north-south / across river)
- Better public transit crossing the river (other than just Central Ave).
 - Alameda Blvd
 - circuitous bus routes to cross river north of Central
- Better North-South service
- Safety - riding transit
- Day passes expire @ 4 a.m. (not 24 hours) - why?
- Reduce door-to-door travel time if use bus (versus driving)

A: 2 2 of 2

- ▷ What can we do ~~start~~ make gov't understand value of public transit?
- ▷ Long transit trips add on to already long work day.

> outreach

> Link to food desert: Hard to get groceries if you have to use transit

▷ Rapid Ride Service Plan (Expand outside central)
- transit centers + jitneys

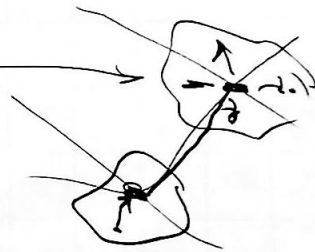

▷ Change % of state funds spent on ~~highways~~ highways

▷ Look at reallocating existing ABC Ride resources to ~~make~~ improve service.

↳ like Houston

▷ Demand-based service
(jitney, ~~trata~~ Gragua, carros Publicos, etc.)

▷ Electric ~~trata~~/solar on stations

- More stores (shopping) + Trader Joes (Boutique's)
- More (Name Recognition) ^{Popular} Stores - Major store (Anchor store)
- Downtown Dance

- FAMILY Friendly Events
Next steps:

- Events that are just not focused around the bars / college activities
- Move forward with Residential Buildings

→ *

- Keep "Movies Nights", current events & bring others.
- Expand downtown outreach

* - Block Parties, promote changing perspective / IMAGE of Downtown.

- Food Cart - start w/ tents and maybe expand to structures.

- ④ * - Create Committee / work w/ ~~city~~ SMG or other groups w/ similar interests.
- Bring awareness into schools - to bring in families
 - Events / Activities every weekend.
 - ~~Bring~~ Bring Unique / New Ideas

- Start Bowling league @ One Central

- Tell city leaders "Yes"

③ - Send out e-mails on when we can go and show support.

Monday 20th 2-3pm

② - Take transit center a destination. Add a section that represent all museums in one space, add restaurants.

Take idea to Ike Barton, Mayor, Planning department, SMG, etc...

F: ^{ROUND} 2

TOPIC:

Continued from Round 1

- Acknowledge how racism, prejudice plays a part in this.
- Pass anti-racism legislation at city, state levels.* This will pave way for language access policies, among other things.

G: ^{ROUND} 2 TOPIC: Vision Zero

1 of 3

Driving as a privilege ≠ right

Distracted Driving / Traveling
↳ taking responsibility for your actions

Lack of safe transit education

↳ Biking ~ Esperanza

↳ Peds - visibility, but \$ & accessibility

↳ Motorcyclists - rights org
Different levels of responsibility, but all need to pay attention and think about others' perspective + response time

How do we get everyone to follow rules of the road

- they need to make sense & work

- explicit & obvious

- accountability → education

- messaging → simple & salient, pervasive

Roads / Infrastructure

- we have the data about who/where but not why

- move away from blaming ppl, change infrastructure

- lane width & speed limits → Road diets

★ Complete Streets Ordinance

green bike lane

G:2 2023

- Striping wears out → need updating
Shows where ppl actually drive

Data

- intersection studies

Emphasizing where ppl walk / bike

- consistency is essential → education / what works?

Fun + Local outreach / Education

- bring positive attention to crosswalks / bike lanes

Staying in authorized space on road
↳ marking clearly who goes where

Roads are for people, not cars

Adopting VZ Plan in ABQ

- policies, funding → budget inclusion
 - APS buy-in, kids are getting hit
 - increase awareness + advocates
 - federal grants
 - what are the costs? Look at other cities
 - encouraging more peds + cyclists
 - DOT ~ Look for Me program
 - Driver's Ed integration
 - ↳ holding them accountable + providing info
 - continuation, ongoing - defensive driving
-

Collaboration

- Look for Me
- Esperanza
- NM Motorcycle Group
- AAA
- Insurance companies
- AARP
- UNM

- MRCOG
- Bike ABQ

VZ = Community Engagement

- reach out 2 big groups of people; who can communicate with/educate large groups of people all @ once
- CHURCHES; show a video

Neighborhood orgs - traffic safety already high priority/hot topic

Denver - study - cars don't stop for minorities

- broader cultural problem, racism
- "Walking/Biking White Black, Hispanic, etc."

Enforcement of traffic laws → Speeding

TOPIC: Create a Sustainability Dept in COA

10F

What we see the department doing:

- Support JOB RETRAINING FOR WORKERS FROM FOSSIL FUEL INDUSTRY. + EDUCATION (See "Off Fossil Fuels Act")
- TEACH/INCENTIVIZE CREATING > ORGANIC MATTER IN SOILS TO ↓ CL. & LOW WATER FOOD PRODUCTION, RAINWATER CATCHMENT, STORMWATER USE
- Hire a Resiliency Officer to start, who connects all department's positive actions, creates connections, identifies opportunities WITHIN the "CITY" GOV'T and beyond, + joins 100 Resilient Cities, a Rockefeller Fund Initiative.
- World faces phosphorus shortage in coming decades. Pilot methods of recovery P from waste stream for use by agriculture.
- Develop aquaponics/hydroponics for local food production
- Set policies to open markets for local businesses to provide for needs: shelter, power, food, health, education, in sustainable ways.
- Involve native american + indigenous communities
- Coordinate City + County operations to be efficient + not redundant
- Coordinate research/studies or make available science/data ^{of} urban metrics for heat island and other climatic effects.

TOPIC: Youth Mentorship & Cycling

- Expose youths to education by teaching skills / profession.
- Promote fitness / cycling as a way to improve well-being.

Based on work of teaching and sports medicine

- Goal: educate / mentor kids about careers, skills, or life. Promote fitness and cycling (MTB) as an avenue to ↓ health related issues, improve self-esteem, and create a lifestyle.
- Target youth, open their eyes, have them make a choice for their own good.
- what's needed:
 - Time
 - Personality
 - Expertise
 - Can work w youth
- Plan:
 - Youths one already knows, be there for them i.e kids, grandkids, etc.
 - Doesn't have to be, but focus on "high risk" single parent households
 - Do an activity (bike!!), break the ice, talk & relate build rapport.
 - utilize org like big bro's, big sisters.
 - "Job Shadowing"
- personal: create RGHs MTB club.
- Measurement: personal stories?

- NMX

-
